Welcome Bride-To-Be,

Hello, I am Renee' Davis, owner/president of "Designbyrenee, inc.", I have been in the design field since 1985, with over 23 years experience to offer you. I owned a small silk floral business for several years, managed a large craft retail store for approximately 15 years, and an interior design shop, where I consulted silk floral and interior designs for residential and large corporations. Now....I am owner of "Designbyrenee, inc.", specializing in silk floral design for that, oh so important, WEDDING.

*With so many designers out there, **WHY CHOOSE ME?** With silk flowers, it is a memory that you can touch and see forever, table settings as gifts, and your bridal party will have a bouquet to always remember your very special Wedding Day. I design for traditional, tropical, and a contemporary look. I will come to you, listen to what **YOU** want, and together we will make your ideas and dreams come to life! We will work with your given budget, with **NO** additional surprises! Step-by-step we will work closely as a team, knowing exactly what to expect and see the product as it comes together. If something is not right, change will be immediately. **NO WORRIES!** With all that said, I will give **100% COMPLETE SATISFACTION.** References will be given upon request.*

*Your Future Floral Designer,
Renee' Davis*
